VOLUME III, NUMBER 24 THE GOLD CENTER NEVADA CITY, NEVADA COUNTY, CALIFORNIA, THE COUNTY SEAT PAPER APRIL 29, 1929

NORTH STAR MINE SOLD TO NEWMONT WILL BE OPERATED WITH THE EMPIRE

With the acquisition of the extensive properties of the North Star Mines by the NewmontCorporation the past few days, a new era of large time production appears destined in the local mining district which will have an important bearing on the future of the industry in Nevada County. The consolidation of the Empire and North Star companies will be effected Wednesday formally and will be operated as one unit after that date under the tentative name of the Empire-Star Consolidated Mines.

Participating in the negotiations which have now been brought to a successful conclusion were Fred Searls, Jr., vice president, Robert Searls, counsel, and W. A. Simkins, engineer for the Newmont interests both of whom are well known in the local field through past associations. Searls is the son of Mr. and Mrs. Fred Searls of Nevada City.

Fred W. Nobs and Arthur B. Foote will continue at least temporarily at the two properties. H. W. Hartman will be installed as resident engineer. The North Star will cease stoping and milling ore Wednesday and cleanup in the mill prior to the actual transfer of the properties. The acquisition of the Empire properties was by outright purchase while the North Star purchase is said to have been by stock transfer.

W. A. Simkins in an interview given The Nugget stated that a definite policy concerning future operations at the properties would have to remain in abeyance until certain details and checkups can be made. Mr. Simkins asked that The Nugget make the following statement:

"Naturally we would not be buying a miningproperty unless we expected to operate it and it is our intention to make the best possible development showing. We realize that the situation is one of importance to the district and we hope to create an operating property that will lead to benefit for the community and that will continue over a long period of time. The Newmont company is primarily an operating company but it also functions as a holding concern. This is our first venture on the Pacific Coast and rest assured that we have not taken this step without full information and study of the local mineral situation."

C. F. Ayer of New York, not Charles Ayer of Boston, is president of the Newmont Corporation and W. Boyce Thompson now of New York is chairman of the board of directors. The Newmont interests are now one of the largest mining corporations in the world, acquiring and operating properties in all the leading districts of the globe and their entry into the local field is extremely significant.

History of the North Star

The North Star vein was discovered by the Lavance brothers in the fall of 1851. A number of claims, 100 feet square, were located by different miners and these were later consolidated as the Helvetia and Lafayette Gold Mining Company. This group of claims controlled 480 feet along the apex of the vein. The Independence group on the east had 800 feet and the White Rock group had 800 feet to the east of the Independence. In the hanging wall of the Helvetia and Lafayette a group of claims had been located known as the North Star. In 1858 the Helvetia group was sold at sheriff's sale for $8000 and later resold to Edward Coleman and others who were the owners of the North Star property. In 1861 the North Star Quartz Mining Company was inaugurated and during the next few years many claims were purchased.

The estimated production of the North Star vein from 1851 to 1886 has been given as a million and a half, the average value of the ore being $25 per ton. In 1867 the holdings were consolidated by the North Star Gold Mining Company. The North Star claim which is 3000 feet long and 800 feet wide was patented in 1875. From 1867 to 1875 the production is given as $1,125,000 from 50,000 tons of ore. The incline shaft had by this time reached a depth of 1200 feet at which depth a barren zone was encountereda nd the mine was closed down for nine years. It was then reopened by W. B. Bourn who had successfully put over the Empire property as a paying mine after a number of "Experts" had condemned it as worked out. Also entering into the picture as one of the finest mining men that ever graced the district was James D. Hague, under whose guiding hand the Champion property was also a large producer after it was taken over by the North Star.

Shortly after the shaft was reopened in May 1884, the North Star was again on a paying basis and the shaft was sunk from the 1200 to 2400 level. Some of the richest ore the property has produced from the 1800 level near a crossing or fault. This ore body continued to the 2100 level and 250,000 tons of ore produced $5,250,000 and in 1893 the average value per ton was $31. Although ore had been encountered in the lower levels of the property, Mr. Hague again showed his abounding faith in the district and in the recurrence of the payshoots in depth by advising the sinking of a 1600 foot vertical shaft in the hanging wall of the North Star vein. This shaft known as the Central shaft and now the main working adit for the property, was commenced in 1897 and the vein was encountered at a vertical depth of 1630 feet or an inclined depth of 4000 feet below the collar of the North Star incline .From the bottom of this shaft, drifts were run east and wet and a main raise was started which connected with the bottom of the North Star incline shaft late in 1903. In the meantime from 1894 to 1900, a numebr of lean years were experienced by the North Star mine, but during this period the Massachusetts Hill mine was reopened by the company and produced $1,000,000 form 68,000 tons of ore.

(To be Continued in later Issues)

WESTERN MERGER CUTS JACKSON VEIN IN DRIFT

The Western Merger management reported Friday that the drift being run on the 400 level to cut the Jackson vein had cut into what appeared to be the sought ore body on that day and that exploration work would be carried out at once to determine its extent.

LINCOLN GOLFERS CLEAN LOCALS SECOND TIME

A large contingent of golfers from Lincoln journeyed over yesterday to try conclusions with the local divot producers and for the second tournament seion worsted them. The drizzlin grain made the course anything but a pleasure to play on.

ELMER FISCHER OPENS UP NEW RADIO STORE

Elmer Fischer has opened up an attractive new store in the Morgan dPowell buliding, carrying raddios, electrical supplies and sporting goods. He has fitted up an attractive interior and has the stock well arranged. Four makes of radios will be stocked, Sparton, Kellogg, Fada and Graybar. All kinds of eletrical contracting and wiring will be done, Mr. Fischer has been a thorough student in radio mechanics and understands well the interior mechanism of the modern radio.

The store will be a regular user of space in The Nugget, Nevada City's home town newspaper.

Joseph Nuttall, resident of the Camptonville section was found dead on his mining claim Saturday by Esmond Mumphrey and Leonard Bishop as they were passing along the road. Several children survive. The funeral will be held tomorrow afternoon at 2 o'clock from Camptonville. The Holmes Funeral Home is in charge of the arrangements.

TURPENTINE IS TO BE REFINED BY NEXT AUGUST

The factory site of the California Timber Products Incorporated presents a rather busy aspect now with the completion of the factory and office buildings. Two tons of gum are now in storage awaiting the installation of the refining equipment which is being shipped from abroad.

The recent rains caused a loss of about 40 per cent of the gum in the cups. The crew of eight men are now starting the second chipping of the trees A. crew of gatherers will be put to work in the next few weeks on a contract basis.

The long delayed machinery for the factory is due to leave France the latter part of May and it is expected that manufacutring operations will be fully under way by August .The great delay in getting the machinery shipped has considerably hampered the company's plans but with its receipt and installation it is expected that operations will make for Nevada county's largest single manufacturing enterprise in the next few years.

WHY SOME MINES FAIL IS SET FORTH BY UREN

If I were to be asked why so many mining ventures turn out to be failures I should perhaps suggest, after having spent 35 years around mines, that there were probably too many shoe makers in the mining business.

Many a promising prospect, through no fault of its own, has been hexed for all time because some yokel put all his funds into a brand new 10-stamp mill and a flower garden and had nothing left for the boys with the much stick; in other words—he had his cart but no horse. It takes a wise man to do a trick like that but how many of them can you count in your own district today?

The promotion of these failures rested equally in the hands of man who had imbibed a generous supply of mining vernacular and who talked himself blue in the face trying to convince his victim that his particular mine was interconnected in some mysterious manner with the famous bonanza mine 25 miles away. That it had the same strike, the same geologic environment and, in fact, was so nearly related that it was practically a sister to the bananza. It is really surprising how many close, but obscure, relations a really well managed mine can inherit in a district after a few promoters get busy.

I know of an instance where more than fifty thousand dollars was spent on the surface in a new mlil and hoist, and less than 100 feet of development has been accomplished underground. The surface plant stands there today in mute testimony to somebody's dumbness, and the passing tranger looks and believes it an abandoned mine. What monuments of advertising these plants are to a mining community.

Another company spent $80,000 trying to make a 40-horsepower boiler do the work of 80. About all they succeeded in doing was to denude all their claims of timber, and yet I am almost certain that this property would be a good producer if it were rightly handled and equipped.

Sixty thousand dollars were spent in trying to unwater and open a mine which is now attracting a well deal of attention on account of its new ore bodies. And so we might go on indefinitely through a list of these costly tragedies caused by bad judgement and inexperience which blacken the field of legitimate mining.

The second cause of failure, particularly in the Nevada City and Grass Valley Districts, is lack of development. Generally the failures coming under this head are the small properties which have been sunk to a depth of from 200 to 1000 feet on shoots of pay ore discovered at or near the surface and

HYDRAULIC BILL GOES TO A VOTE BY TOMORROW

The vote on the Seawell hydraulic mining bill is scheduled for tomorrow Tuesday afternoon at 2:15 in the assembly chamber. The final action on the bill has been delayed owing to the impeachment proceedings in the state senate.

Assemblyman Seawell has done yoeman service in behalf of the bill but has encountered the same old antagonism from the Sutter county crowd which is reputed to have a paid lobby working against the bill in the state capitol harping on the same old one string fiddle. There have been a few politicians down in the valley who have been working on the farmer's sympathies for many years and maintaining themselves in office on that count. The same spirit that wiped out a hundred million dollars worth of placer mining property in the early '80ties drove out the smelters from Shasta county and removed the biggest prosperity that any county could have enjoyed. Placer mining is coming back some of these days and the sooner it does the sooner California and the Sacramento Valley will benefit in abundant measure from having the mountain section of the state prosperous once more after having been throttled these many years.

The mining fraternity feels that it has a real friend at court in Assemblyman Seawell.

ASSEMBLYMAN SEAWELL ADDRESSES SCHOOL MEET

Assemblyman Jerrold L. Seawell was the principal speaker at the public schools meeting sponsored by Madison Lodge at Grass Valley Friday evening and showed to excellent effect as he has been closely identified with the schools movement for some years past at Roseville as a member of the school board.

MRS. SARAH GOYNE CROSSES THE DIVIDE

Mrs. Sarah Fraser Goyne, relict of the late Philip Coyne ended her life history Tuesday night following a lingering illness. The members of her immediate family were at the bedside when the end came and had given her every care and attention during her declining days. The funeral services were held Thursday afternoon from the late home, conducted by Rev. H. H. Buckner.

Deceased was born Nov. 7, 1849, in Canada and settled in Nevada City in 1857 where she had since made her home. She was wed October 3. 1872 to Philip Goyne and of that union were born two children, Miss Certrude and Mr. Richard R. Goyne. A sister, Mrs. Elizabeth Sauvee also survives.

Mrs. Goyne leaves behind the memory of a well spent life and her many kindly ways will be long remembered among her multitude of friends.

KATE HARDY OFFICERS ON WAY TO PROPERTY

Ben F. Ballard, president, J. T. Coffman and O. Opland, directors, were in town Saturday on their way to the Brush Creek mine which is being operated by the Kate Hardy Company, largely composed of Sonoma county capitalists. Ballard and Opland are from Santa Rosa. Coffman is a prominent practicing attorney of Healdsburg and one of the highly respected members of the Sonoma county bar.

The Brush Creek mine is one of the promising properties of Sierra county and is making a good production record so far after its acquisition by the Kate Hardy interests.

Ignition Parts and Accesories at Miner's Foundry. 24tf

John McLeod is ill in the Nevada City Sanitarium.

MONARCH FINANCING IS COMPLETED NEW TUNNEL TO BE RUN SIERRA CITY

Telegraphic advices from Los Angeles to The Nugget are to the effect that financing covering all new development and complete electrification of the Monarch mining property at Sierra City has been accomplished in the East and in France during the succeeding eighteen months, which means large time operations for that promising district.

All ore from the present rich ore shoot will be handled through a vertical shaft to the present 342 foot level. There is estimated to be approximately 175,000 tons of ore blocked out which will plate from $10 per ton upwards. The high cost of mining has previously held this property back but with the installation of cheap power and the driving of a new long tunnel from the lower portion of the property will greatly reduce mining costs.

While working out the present reserves, a new mill and tunnel will be equipped on the south end of the property which will give a gravity system for handling the ore as pecified in a previous issue of this paper. The interests handling the property found English and French captal much interested in California gold mining at the present time and ready to participate in its fuller development if properly presented.

The international Russian engineer Mark Rascovitch is now affiliated with the Monarch properties and A. C. Fayot has been appointed to the board of directors in an executive capacity.

D. H. Dutton has been in charge of the company operations. The property is under bond and option from Jack Lee of Sierra City.

IDAHO MARYLAND VEIN MAKES GOOD SHOWING

Further details available yesterday regarding the uncovering of what appears to be the Morehouse vein on the 1500-foot level of Idaho-Maryland Consolidated Mines proper, as reported last week, indicates that the ore discovered shows the characteristic sluphides and visible gold of the Morehouse vein, which has been worked on the 2000-foot level. This discovery establishes what seems to be an exploratory area of 1000 feet along the depth of the Morehouse.

On the 2000-foot level this vein has been opened for a length of 300 feet and to a similar depth. From an area of 150 by 200 feet, an official of the company states, $150,000 is reported to have been produced to date. The vein in these stopes is from 4 to 8 feet in width and the ore has value of from $10 to $20 per ton.

BRANSON BOOSTS FOR PLACER MINING INDUSTRY

"Nothing conceivabel in an industrial way could be of as much benefit to California as to restore hydraulic mining, under proper safeguarding of that portion of the resulting debris comprised in the form of heavy boulders and other material other than the finer silt that in some cases is more beneficial than otherwise," said L. C. Branson, of Ely, Nevada, who has spent the past month in Nevada City. Mr. Branson has followed mining booms all his life, having spent many years in the Klondike, at Tonopah, Goldfield, Jerome, Arizona, and elsewhere. At each of which he has been the publisher of a daily newspaper and has made and lost several fortunes. At one time he resided in Grass Valley where he was city editor of the Union.

Mr. Branson is a member of the assembly of the state of Nevada, having spent the winter at Carson City before coming here to visit relatives. He has a further claim to distincetion through the fact that he hails originally from West Branch, Iowa, Herbert Hoover's birthplace, and is doubly related to the perisedent through both father and mother.

Mr. and Mrs. Branson departed for their home Saturday via Yuba pass. Their visit has been at the home of the latter's sister, Mrs. Emma Downey.

MCGONIGAL AND SELF BOND MINE PROPERTY

C. Dan McGonigal and Riley Self of Downieville have just bonded the Mount De Oro mining property near Woodleaf, consisting of six patented claims and are starting operations on reopening the property today after the property had been idle for the past year.

There is a crosscut tunnel about 600 feet in length and McGonigal reports that there is 2500 to 3000 tons of ore blocked out ready for milling. The property is a new one and is equipped with a mill. It is located on a porphyry and granidiorite contact and McGonigal is highly enthusiastic over the prospects of developing a real producer.

BIDS YUBA PASS HIWAY CALLED OPEN MAY 16

Bids for the construction of the new Yuba Pass highway highway between Downieville and Sierra City will be opened in San Francisco on May 16th and it is expected that construction will be under way shortly thereafter. Work will be prosecuted from both ends. The right of way has been brushed already by the forest service. The funds are derived from federal aid sources and amount to $166,000.

High class electrical work of all kinds at Miner's Foundry. 24tf

KELLY WINS CASE IN AUTO ACCIDENT TRIAL

Attorney Lynne Kelly won his case in superior court the past week in the suits brought by Mrs. Lucille Bray and C. H. Barkdull to collect damages from Thomas L. Woodruff as the aftermath of an auto accident on the South Yuba grade May 20th of last year, in which W. Bray, husband of one plaintiff, lost his life and Barkdull was injured. The trial occupied two days and much evidence was introduced into the records. This is the second case in this county in which the jury refused damages under similar circumstances.

DEVELOPMENT WORK IS PROCEEDING AT NEOCENE

Underground operations are continuing at the Neocene properties north of town in opening up the large gravel deposit encountered some weeks ago. The setting of the new ball mill has not been completed owing to the recent wet weather and as soon as the ground has thoroughly dried out this will be finished and the mill put in operation. Sufficient gravel to keep the mill running steadily for a year has already been blocked out and shows excellent values.

Neocene Gold Incorporated is financed by Southern California capital and controls a large acreage on what appears to be the extension of the old Manzanita channel which produced so heavily in early days.

Nevada Royal Arch Chapter will confer the Past and Most Excellent degrees on a candidate this evening. A number of members of the new Roseville Chapter are expected to be present for the ceremonies.

Richard Phelan ,formerly of Sierra county and a former resident of this city passed away in Oakland recently.

Mrs. M. Brophy, postmistress at Lyton, British Columbia, and a former reident of the San Juan Ridge, is here on a visit with friends.

Mr and Mrs. J. R. Ivey and Miss Earline Sutton spent Saturday in Sacramento.

Tom Coan will open his popular resort, Uncle Toms Cabin,, with a big dance, Saturday night, May 11th

SENIOR NOTES

On Thursday, April 18, the senior class held a meeting for the purpose of selecting a class flower and motto. A yellow rose was selected as the flower. The motto chosen was, "To strive, to Seek, to Find, and not to Yield". On Thursday, April 25, another meeting was held to discuss senior week.

JOKES

Mr. Isensee—"Here, this will never do! Why is it you are late this morning?"

Student—"It was this way, sir. There are eight in our family, and the alarm was set for seven".

Donald S.—"You look awfully sleepy, Francis. What's wrong?"

Francis B.—"Somebody told me if I'd wait on the corner I'd hear the high school yell, and it didn't say a word all night".

Bob Polglase—"When I was a freshman I was given up for hopeless by five doctors".

Addison—"What did they give you up for-"

Bob—"For not paying my bills".

Miss Elma Hecker returned to her duties Wednesday at the court house after an absence of some time caused from illness.

TRACK MEET

Mr. Pedersen took Byron Janes, Addison Janes, and Bob Polglase, as representatives of the Nevada City high school, to a track meet held at the Davis Farm picnic, April 20. The boys made a good showing at this meet but did not win any prizes. Track season is now over in our high school. It is hoped that we can have a strong track team again, next year.

Nancy—"My father says that he thought nothing of studying five hours a day".

Bernie—"Well, I don't think so much of it myself".

Then there was the Scotchman who would only let his boy have one measle at a time.

Judge E. W. Enges passed thru Nevada City Wednesday to his home at Downieville. He will remain there a few days on official business and then return to Los Angeles where he will continue holding court.

Mrs. A. J. Keehn of Washington has so far recovered from a recent operation at the Nevada City Sanitarium that she was able to leave the hospital.

H. G. Loveland of Sacramento visited friends in Nevada City Wednesday.

THE HIGH SCHOOL NEWS

Edited by the Students of N. C. H. S.

EDITORIAL

Another indication of the fine public spirit shown by the Women's Civic Improvement club is its recent gift of shrubs and plants to the Nevada City high school. The shrubs, which are being planted by the employees of the Felix Gillet nursery, will detract from the barren look of the school. These shrubs are being planted around the front part of the building and in time will add a lot to the outside appearance of the high school.

This is only one of the many public services rendered by the club since its organization. It has helped to defray the expenses of some of the Camp Fire Girls to summer camp; it helped make the Christmas season brighter this year by putting up the Christmas tree in the Native Daughter's park, and urging the decorating of trees in people's yards; it has placed garbage cans around town to keep the streets cleaner; it has improved many places by planting trees.

We wish to again thank the club for giving us these shrubs, and voice the appreciation of Nevada City for its many kind deeds.

THANKS, MR. ISENSEE

The pupils of the Nevada City high school wish to thank Mr. Isensee for his excellent cooperation with the school in regards to the tennis court. Besides planning the court and arranging for its financing, Mr. Isensee has worked on the tennis court every day and has given his time on Saturdays.

TENNIS COURT

The tennis court, which is nearing completion, is standard in size. The interior dimensions are such that the court can qualify for championship games. The surface of the playing court, which is concrete, will be encircled with grass sod.

The court is to be dedicated as a memorial to those classes which have left sums on deposit in the bank. The classes of 1917-1918-1921-1925-1928-1929 are to be honored. A metal plate in the court surface will bear the numerals of the above classes.

NEWSPAPER STAFF

The present newspaper staff will be retained until after the Senior Farce, "Applesauce", which is to be presented May 16, at the Nevada City theatre.

GIRLS' TRACK MEET

The fourth and seventh period girls' physical education classes held a track meet at 3 o'clock, April 25, at the high school. The events were won by the following girls:

Broad Jump .... F. Horwege, Junior
High Jump Jean Gleason, Freshman
Baseball Throw J. Gleason, "
Discus Throw .... F. Horwege, Junior
Relay Rage ..... Sophomores
50 Yard Dash Nancy Jones, Senior

This track meet was the first one that has been held at the high school for many years. It was organized under the supervision of Miss Leschinsky. Miss Leschinsky worked hard training the girls for this event, which proved successful and was enjoyed by all the pupils.

JUNIOR PROM

On Friday, April 26, the juniors held their annual Junior Prom, which was one of the largest affairs ever held in school history, (or at least the juniors thing so). The hall was decorated in the class colors, green and white, with many colorful electric effects. Mobley's orchestra furnished the music. The Prom as a whole proved to be a great success. The juniors wish to thank everybody for the cooperation given to them.

Senior—"I'll give you a hundred dollars to do my worrying for me".

Frosh—"Great! Where's the hundred?"

Senior—"That's your first worry".

Henry Monroe of North Bloomfield visited friends here Tuesday.

IMPRESSIONS OF FARCE

On Wednesday, May 16, the class of '29 is to give its senior farce at the Nevada Theatre. The play is to be "Applesauce" and was written by Barry Conners. Mr. Conners wrote it at Edward's Bridge near Nevada City. He was known by many Nevada City people.

The farce is developing rapidly. The cast is rehearsing constantly; in fact, this reporter has tried in vain for several weeks to get a conversation with a certain member of the cast. All that has been seen of her is a dark figure slinking quietly from class to class with a ilttle brown book entitled, "Applesauce" held close in her hand. We hear that the cast is having applesauce for breakfast every morning in order to get local colour.

This reporter attended one of the rehearsals and came away with a variety of impressions. After seeing Pa and Ma (Donald Stevens and (Alberta Baker) fight for a few minutes, the reporter wondered whether she was a war correspondent. As Pa's fierce growl came across the table to Ma, the reporter jumper under said table for refuge. However, when Pa banged upon the table to emphasize his word, the poor reporter fainted and had to be revived.

The reporter wept and wept over poor Rollo Jenkins (Byron Janes) and then laughed and laughed over Mrs. Jennie Baldwin (Mary Jones). The combination was too much for her. She went into hysterics and had to be revived again.

She would really like to know how Elbridge Skeahan has been hiding his real nature all this time. She had always thought him quiet and perhaps a little bashful. But when she saw him as Matt McAllister, a gruff, forward gentleman, she put on her spectacles to see whether her eyes were deceiving her.

When the reporter saw Vera Toccalini breaking hearts as "Hazel" she firmly resolved to have said "Hazel" arrested for disturbing her peace of mind. Really, if the reporter ever gets married ,she will lie awake nights thinking of ways to keep fond hubby from Vera.

As for our hero, Bill, ((Carroll Coughlan) the reporter went to bed immediately after rehearsal, suffering from a heart attack, which developed upon hearing him sling the "Applesauce". Really, the reporter considers him the answer to a maiden's prayer. To think that she had been sitting beside him in sociology, lo, these many months, without appreciating his talents.

The reporter enjoyed this rehearsal so much and learned so many interesting things about the cast that she can hardly wait to see the farce on May 16. She wishes that all the people in Nevada City will be present with her at "Applesauce".

Nancy Jones '29

QUILL NOTES

The material for the "Quill" is almost completed and Mr. Willoughby is going to print it either the last week in April or the first week in May.

CAMP FIRE HIKE

The Shishiwa Group of Camp Fire girls went on a hike on Tuesday, April 23. The girls left town about four o'clock and went out the Downieville highway. Miss Janes, the guardian, and Miss Hoffman went with the girls.

POSTER COTEST FOR PLAY

The senior class has announced a poster contest for the advertising of the senior farce, "Appleauce", which is to be held May 16, at the Nevada City theatre. All students are asked to compete in this contest.

All posters must be handed to Nancy Jones by May 3. There will be prizes awarded for the two best posters. The first prize will be two tickets, and the second will be one ticket to the farce.

JOKES

Miss Taylor—"How many times hove I told you to come to class on time?"

Meta—"I don't know I thought you were keeping score".

And then there's the absent minded plumber who forgot to forget his tools.

THE TEACHERS SAY

Mr. Isensee—"A fellow who indulges in hot air usually lacks steam."

Mr. Pedersen—"The Virginian was killed by an automobile seeking to protect calf."

Sheriff George R. Carter was an official visitors at Spadra, Los Angeles county during the week.

Mrs. W. S. Coughlan left Wednesday for San Francisco where she will visit for several weeks with her daughter, Mrs. C. King.

Mrs. E. M. Austin, county superintendent of schools, and Miss Marjorie White, county health nurse, visited the public schools of French Corral and Birchville.

Marion Lusk, former supervisor of Sierra county, was attending to business affairs here Monday.

Carroll Towle, of Spenceville, was a Nevada City visitors early in the week.

Miss Mary Meservey had as house guests, Mrs. Flavella G. Spike of Tacoma, Wahington, and her brother, Earl Goding of Delano.

Mrs. Herbert Paine is spending a few days visiting relatives in San Francisco.

Mr. and Mrs. A. F. Thore of Tyler were in Nevada City early in the week.

Mr. and Mrs. Frank Keeney, recent arrivals from South Africa, visited friends here Wednesday. He was reared in Willo wValley, and has spen 21 years in South Africa as a mining engineer.

CAMPTONVILLE PERSONALS

One of the slogans of the Meek Mercantile Company is "We sell everything from a needle to an automobile", and last season they added "The Forest", a novel soda fountain and ice cream department. The season is too far behind this year for the opening of the ice cream season, but Monday afternoon, Dr. J H. Barr, county health officer, and Miss Margaret Lynch, county nurse, "opened shop" in the Forest, and vaccinated a number of local people against small pox.

The only small pox in this section are three cases at the Klenzendorf family at the Tramway, and it is not severe, but as a preventative to those who caw come in contact with the disease, over thirty of the local people were vaccinated Monday by Dr. Barr.

Andrew Bachels of Goodyears Bar passed through town Wednesday from Nevada City enroute to his home.

NEWMONT'S INVESTMENT EXPRESSES CONFIDENCE

The old order changeth. While here has been a sentiment concerning the ownership of the Empire and North Star minesc over a ongt term of years, the people of this section should welcome the new ownership of the mining properties of these two companies so long idnetified with the material prosperity of our community. Firt of all it is an expression of confidence in this mining district by what is perhaps the largestmining organization in the world. That in itself should augur well for the community.

The wealth of the Newmont Company gives assurance that the mineral zone covered by the properties of the Empire and North Star mines will be thoroughly exploited in a scientific manner under trained engineers. There need be no shortage of money for development and exploration, a factor that is most necessary if the fullest results are to be obtained.

There is nothing more timid than money, frequently referred to as capital. This bank has made a large investment in the community. Other large inerests have since invested in other lines on different scales that also give confidence. Newmont's entry is important. They have confidence in the success and the future of the district's basic industry. With this in mind, let's pu on full seam ahead.

GHIDOTTI'S COP BUNTING IN THIRD TOURNAMENT

By annexing four points from the Penrose league of nations Monday night the Ghidotti's annexed the pennant in the Elks bowling tournament by a comfortable margin of two points over their nearest competitors, the Trevithicks. The triple tie for first place the previous week proved too much effort for the Durbins who after starting out bravely enough against the Lobdells in the closing session, dropped three points and went into a tie for third place. The Lobdells in the closing session copped three point and went into a tie for third place. The Leiters and the Penroses are tied for cellar berth.

The way the Durbins started out Thursday night looked as if they were planning on a clean sweep of the series with the Lobdells but they foolishly spent all their energy in winning the first game and then went to pieces for the last two. Lobdell had his ball working in fine shape on the strikes and if he had been able to do better work on his spares would have hung one of the best three game totals of the year. He mowed down four strikes in a row twice. He had a pin total of 497. Ghidotti by some stellar work Monday night romped into third place for the week with 491. His 207 game was high for the week. Pierce rolled 201 to open the evening but his last two games were off color. If he used a corner ball with his control he could run his game up quite a bit higher as he has good control.

A more complete summary of the winner's work will be presented next week. The tournament work is now completed until next fall unless a challenge series is worked with Grass Valley.

Doubles — Curnow 2, Ghidotti, Hoge, Scheemer, Celio, Durbin, Nickless, Lobdell, Tamblyn.

Triple—Bigelow, Ghidotti, Walling, Durbin, D. Richards, Fortier.

4 in a row—Ghidotti, Lobdell 2.

PACIFIC COAST AUTO ASSOCIATION

Emergency cars to patrol highways. A new type of road service is to be placed on highways by the Pacific Coast Auto Association, according to W. W. Rexrode, District Manager. This service will be cars completely equipped for emergency repairs with a supply of gas and oil for those that run short of these necessities at inopportune times. A stretcher and complete first aid kit will also be provided in case more serious accidents occur. Primarilly the service is being installed for the use of the many members of this popular organization of motorist, but, Mr. Rexrode states that the patrol cars will also respond to calls for help from non-member motorist in case of need. The first car for this district will be operating here within the next few days.

DR. CALDWELL'S THREE RULES

Dr. Cal l watched the results of onstipation for 47 years, and believed hat no matter how careful people are f their health, diet and exercise, constipation will occur from time to time. It next importance, then, is how to treat t when it comes. Dr. Caldwell always as in favor of getting as close to nature s possible, hence his remedy for constipation is a mild vegetable compound. It an not harm the most delicate system nd is not habit forming.

The Doctor never did approve of drastic physics and purges. He did not believe hey were good for human beings to put nto their system. Use Syrup Pepsin for ourself and members of the family in onstipation, biliousness, sour and crampy stomach, bad breath, no appetite, headaches, and to break up fevers and colds. Get a bottle today, at any drugstore and observe these three rules of health: Keep the head cool, the feet warm, the bowels open. For a free trial bottle, just write "Syrup Pepsin," Dept. BB, Monticello, Illinois.

A Sour Stomach

In the same time it takes a dose of soda to bring a little temporary relief of gas and sour stomach, Phillips Milk of Magnesia has acidity completely checked, and the digestive organs all tranquilized. Once you have tried this form of relief you will cease to worry about your diet and experience a new freedom in eating.

This pleasant preparation is just as good for children, too. Use it whenever coated tongue or fetid breath signals need of a sweetener. Physicians will tell you that every spoonful of Phillips Milk of Magnesia neutralizes many times its volume in acid. Get the genuine, the name Phillips is important. Imitations do not act the same!

PHILLIPS Milk of Magnesia

IT'S EASY... and ECONOMICAL to avoid this TOIL

TELEPHONE us to call for your laundry bundle and we'll take the tiresome toil of washday out of your life forever. You will find it more economical, for your clothes last longer, and you have more time to devote to yourself and your home.

FRENCH CORRAL ITEMS

FRENCH CORRAL, April 27, (Special to The Nugget)— Well, our beautiful and favorite month of April is almost at an end surely it is a month of beauty, and of hailstorms too. Hearing of the recent hailstorm at Nevada City, brings to recollection two very severe hailstorms that visited French Corral, some year ago. The first one in which the hailstones were as big as ordinary sized marbles, and altho it lated but three or four minutes, it removed the verdure from all the shrubs and damaged the fruit badly. The other hail storm occurred in April 1901. We are sure you will think we are exaggerating, but every word is true. It lasted about fifteen minutes and was accompanied by thunder and lightening and the hail stones kept growing until they were as large as large walnuts, and hen's eggs! By actual meaurement they were from four to six inches in circumference and bouncing thickly over the ground, they looked like a lot of snow balls. Window panes on the north side of the house, and unprotected by porch were broken everywhere, and old roofs were simply battered into kindling wood. Trees and shrubs were not only stripped of leaves, but small branches also. We certainly had a feeling of awe to witness it. It passed through a certain belt of country and in our neighbor village of Pleasant Valley its sevirity was felt the same as in French Corral. So much for the elements, and now for the people:

Miss Millie Clerkin returned to French Corral Friday morning with Mrs. A. Browning and son, Harry. The ladies were in attendance at the Neighbors of Woodcraft Lodge.

Miss Clerkin also attended the anniversary reception of Laurel Parlor. She reported having the usual "splendid time" which Laurel Parlor's guests always enjoy.

"Buzz" Calanan passed through this place with his cattle Friday taking them to his ranch at Shady Creek.

W. E. Moulton made a trip to North Bloomfield Friday to bring his daughter, Louise, home for the week's end.

Mrs. A. Browning and son, Harry, Mrs. J. McCullough of San Juan, W. P. Clerkin and sister, Millie, formed a party to attend the Chamber of Commerce dance at Nevada City Saturday night. All reported a wonderful time.

W. W. Washburn of Bdowns Valley had business in French Corral Saturday.

Mr .and Mrs. W. E. Moulton and daughter, Louise, went to Grass Valley Saturday to meet Miss Frances, who came from Sacramento to spend the week end at home.

M. O'Conner and sisters, Misses Katie and Teresa, made a trip to Grass Valley Saturday.

Mr. and Mrs. C.-Breinard and Mr. and Mrs. Crosby of Loomis were the guests of the Clerkin family Sunday.

We had a rain Sunday but rainy days do not keep people at home, in this day of autos.

L. Lacost and V. Lassere of San Francisco were Sunday visitors at this place. This was their first visit to this section and they expressed their delight at finding such a beautiful country, and wished they owned a home here.

Mrs. Lillian Ward is visitiny her father, Thomas Hall of Brchville. Mrs. Hall expects to remain for some time as her health has not been very good in San Francisco.

Miss Theresa O'Connor returned to Pleasant Valley Sunday evening after spending the week's end at her home in Birchville.

E. Collins and M. Denicke had business in French Corral Tuesday.

Mrs. E. Austin, superintendent of schools, and Miss Dorothy White, school nurse, visited the French Corral school Wednesday.

G. L. Sweetland returned to French Corral after spending a few days in Nevada City.

H. Berran is spending the week in Pleasant Valley at the ranch of Wm. Wright.

J. W. Culver and H. Hoskins made a trip to Nevada City Wednesday.

We are pleased to see that our neighbor, W. E. Moulton, has a new car, which he tried out in a trip to North Bloomfield and Sacramento Sunday, at which time he took his daughters, Frances and Louise, to their respective places of employment.

In 5 MILLION HOMES TONIGHT

A host of babies will enjoy sound sleep tonight. And their parents will have unbroken rest. Castoria is the cause of this contentment in a multitude of homes.

Good old Castoria! Children cry for it. Mothers swear by it. Not a household where there is an infant should ever be without it. A few drops of Castoria quiet Baby in a perfectly innocent manner. It is natural slumber that follows. Castoria is a purely vegetable product. No opiates. No narcotics. Of any kind.

Now you know why trained nurses give Castoria as often as an infant is ailing, or even restless. And why doctors tell mothers it is the first and only home remedy when Baby has constipation, colic, diarrhea, or other upset. It is made for babies, and safe to give babies, and other things are not.

Fletcher's Castoria is "old-fashioned" if you count its fifty years, but it's an old-fashioned mother, nowadays, who worries along without it. Twenty-five million bottles bought last year! Think of the number of mothers who rely on Castoria! All these mothers can't be wrong! To keep a bottle in the house is a precaution you owe your little one.

Children Cry for Fletcher's CASTORIA

The many friends of Mrs. M. V. Winans are sad to learn of her passing away. Most of her lifetime was spent on the San Juan Ridge and she was beloved by all who knew her. When she lived in French Corral her husband, the late W. E. Winans, was foreman of the Esperanza mine, which was owned by the late George D. McLean and was being developed at that time.

In marking the passing of Mrs. Sarah Goyne, we recall the old days when her husband, Phil Goyne, was often cornet player for our dances on the San Juan Ridge .It is beautiful to learn of the devotion of her son and daughter to their good pioneer mother. "Honor thy father and thy mother", that commandment can never be over done.

Wm. Litchenberg of the Brush Creek mine was a visitors here during the week.

LEGAL NOTICE

SUMMONS NO. 5702

In the Superior Court of the State of California, in and for the County of Nevada.

SARAH PRESCOTT, Plaintiff,
vs.
JOHN SENNER, Sr., CHRISTINA SENNER, his wife, JOHN SENNER, Jr., FRED SENNER, WILLIAM SENNER, EMMA MALTMAN, ALEXINA C. M. GRISSEL, GEORGE A. GRISSEL, her husband, ARTHUR BARTON, and also all other persons unknown, claiming any right, title, estate, lien or interest in the real property described in the complaint adverse to plaintiff's ownership, or any cloud upon plaintiff's title thereto, Defendants.

Action brought in the superior court of the State of California, in and for the county of Nevada, and the complaint filed in the office of the clerk of said county of Nevada.

F. T. NILON,
Attorney for Plaintiff.

THE PEOPLE OF THE STATE OF CALIFORNIA SEND GREETING TO:

John Senner, Sr., Christina Senner, his wife, John Senner, Jr., Fred Senner, William Senner, Emma Maltman, Alexina C. M. Grissel, George A. Grissel, her husband, Arthur Barton, and "also all other persons unknown, claiming any right, title, estate, lien or interest in the real property described in the complaint adverse to plaintiff's ownership or any cloud upon plaintiff's title thereto," defendants:

You are hereby directed to appear and answer the complaint in the action entitled as above brought against you in the superior court of the state of California, in and for the county of Nevada, within ten (10) days after service on you of this summons if served within this county; or within thirty (30) days if served elsewhere.

And you are hereby notified that unless you appear and answer as above required, the said plaintiff will take judgement for any money or damages demanded in the complaint, as arising upon contract, or the will apply to the court for any other relief demanded in the complaint.

The object of the action is to determine all and every claim, estate, right, title, lien or interest in the real property hereinafter described, adverse to plaintiff's ownership, or any cloud upon plaintiff's title thereto; to obtain a judgment of this court adjudging and decreeing that plaintiff is now, and has been, by herself and her predecessors in interest, in the actual, exclusive and adverse possession of said real property, continuously for the period of twenty (20) years immediately prior to the filing of the complaint in this action, claiming to own the same in fee as her separate property against the whole world, and that plaintiff by herself and predecessors in interest has paid all taxes of every kind levied or assessed against said real property during the period of five (5) years next preceding the filing of the complaint aforesaid; that plaintiff is the owner and entitled to the possession of said real property that all claims of said defendants thereto are without right, and that defendants have not, nor has any of them, any right, title, estate, or interest in said real property or any portion thereof.

The real property affected by this action, and hereinbefore referred to is described as follows:

All that certain lot and parcel of land situate in the city of Nevada County of Nevada, State of California, bounded and described as follows, to-wit:

All of the lot numbered three (3) and a portion of the lot numbered twelve (12) of block numbered (12) in said city of Nevada as said lots and block are designated and delineated upon the map of the official survey of said city made by H. S. Bradley in the year 1869, described as follows, to wit:

Beginning at a point on the east line of Main street from which the corner of Main and Church streets bears north 28° 13′ west 91.68 feet; thence from a true meridian north 62° 57′ east 52.23 feet; thence north 14° 21′ west 9.15 feet; thence north 21° 21′ east 68.57 feet to the northeast corner at a stone wall on Coyote street, from which the corner of Coyote and Church streets bears north 4° 57′ west 80.20 feet; thence south 5° 44′ west 51.35 feet along Coyote street; thence south 76° 30′ west 43.40 feet along stone wall; thence south 61° 07′ west 56.70 feet to Main street from which the north west corner of Snyder's brick garage bears south 27° 25′ east 60.38 feet distant; thence north 29° 49′ west 91.10 feet along concrete wall to the place of beginning.

Given under my hand and the seal of said superior court of the State of California, county of Nevada, this 22nd day of December 1928.

GEORGE COUGHLAN,
Clerk
By R. N. McCORMACK,
Deputy Clerk.

LEGAL NOTICE

FOR PUBLICATION

Application for Mineral Patent, Serial No. 024487 Department of the Interior, United States Land Office, Sacramento, California, April 26, 1929. Notice is hereby given that Washington Mining and Development Company, a corporation, whose post office address is 1968 Los Angeles Avenue, Berkeley, California, has made application for a patent to the Foster Association Claim, embracing the SE¼SW¼SW¼ (being SE¼ of lot 7), and SW¼SE¼SW¼ of Sec. 6, NE¼NW¼, Lot 1 of Sec. 7, T. 17 N., R. 11 E., M. D. M., excluding and excepting the Slug Quartz Mine, Survey 6017, embracing 1.706 acres and .403 acres of the Slug Extension Quartz Claim, Survey No. 6017, Pigeon Blue Placer Claim, embracing NW¼SE¼SW¼, NE¼SE¼SW¼, Sec. 6, T. 17 N., R. 11 E., M. D. M.; Carrol Placer Claim, embracing NW¼NW¼NE¼, SW¼NW¼NE¼ Sec. 7, T. 17 N., R. 11 E., M. D. M., and Sandy Hook Placer Claim embracing E½NE¼NE¼, Sec. 12, T. 17 N., R. 10 E., M. D. M., containing 162.66 acres. Notice is further given that said company has also applied for patent from the United States for 1486.5 linear feet on the Slug lode, Survey No. 6017, bearing gold, the same being S. 9° 48′ 20″ E. 1476.50 feet and N. 9° 48′ 20″ W. 10 feet from the discovery point or monument thereon with surface ground fifty feet in width, situate in Washington Mining District, Nevada County, California, and described by the official plat and by the field notes on file in the office of the Register of the Sacramento land district, California, as follows: Beginning at corner No. 1, whence the SE corner, Sec. 7, T. 17 N., R. 11 E., M. D. M., bears S. 42° 49′ 20″ E. 5774.00 feet, thence S. 79° 25′ W. 50 feet to corner No. 2; thence N. 9° 48′ 20″ W. 1486.5 feet to corner No. 3; thence N. 79° 25′ E. 50 feet to corner No. 4; thence South 9° 48′ 20″ E. 1486.50 feet to corner No. 1, the place of beginning, containing 1.706 acres, and forming a portion of S½SW¼ Sec. 6, N½NW¼ Sec. 7, T. 17 N., R. 11 E., M. D. M. Notice is also given that said company has applied for patent from the United States for 350.96 linear feet on the Slug Extension lode, Survey No. 6017, bearing gold the same being N. 10° 20′ 10″ W. 5.7 feet and S. 10° 20′ 10″ E. 345.26 feet from the discovery point or monument thereon with surface ground fifty feet in width, the same lying within the exterior boundaries of the Foster Association Placer Claim, and also 1137.54 linear feet S. 10° 20′ 10″ E. on the said Slug Extension lode and surface ground 598.32 feet in width lying outside of the exterior boundaries of the said Foster Association Placer claim situate in Washington Mining District, Nevada County, California, and described by the official plat and by the field notes on file in the office of the Register of Sacramento Land District, California, as follows: Beginning at Corner No. 1, whence the SE corner Sec. 7, T. 17 N., R. 11 E., M. D. M., bears 50° 16′ E. 4404.40 feet,; thence S. 79° 25′ W. 598.32 feet to corner No. 2; thence N. 10° 20′ 10″ W., 1192.73 feet to corner No. 3; thence N. 88° 49′ E. 277.70 feet to corner No. 4; thence N. 10° 20′ 10″ W. 346.82 feet to corner No. 5; thence N. 79° 25′ E. 50 feet to corner No. 6; thence S. 10° 20′ 10″ E. 355.10 feet to corner No. 7; thence N. 88° 49′ E. 277.70 feet to corner No. 8; thence S. 10° 20′ 10″ E. 1093.74 feet to corner No. 1, the place of beginning, containing 15.105 acres, and forming a portion of the NW¼ Sec. 7, T. 17 N., R. 11 E., M. D. M. The location notices are recorded in Book 23, [illegible] pages 262 and 333; Book 27 at pages 483 and 484; Book 29 at page 41; Book 28 at pages 141, 173 and 181 of Mining Claims, in the office of the County Recorder of Nevada County, California. This application is made subject to the right of way granted to Schwartz and Kohler for a Conduit and Power House under Sec. 24, Act of June 10, 1920. There are no adjoining or conflicting claims.

JOHN C. ING,
Register.

WHY SOME MINES FAIL

oCntinued from front p..e followed until they have pinched or given out.

I have in mind several such properties the the fault has been in nearly every instance such lack of judgment or guidance of directors as to permit the axtraction of all available ore before seeking additional reserves for the future. The result is generally the same; the reluctancy of exchanging dividends for assessments and the final closing of the mine before it is half developed.

One such company I have in mind worked for more than 10 years on one shoot of ore. In that time they didn't do 2000 feet of new work. When the shoot gave out conditions had so changed that it was impossible to raise funds for development and another good property in favorable territory lies idle and filled with water.

The veins of these districts are sometimes classed as small veins by some of the larger operators, nevertheless these veins make up in gold content what they may lack in size and I believe their mining is fully understood only by those familiar from long experience with their working.

When it comes to developing a mine for ore in a broken up erea underground in these districts I would rather have the opinion and judgment of some intelligent practical miner who had spent a considerable length of time in the district and thoroughly familiarized himself with the underground conditions than I would have the opinion of the highest paid expert it was possible to employ. Thousands of dollars have been wasted to my knowledge in this district by managers who know it all and consider themselves too important to discuss matters with their operatives.

How many districts can show an Empire with 79 years of continuous profitable operation to a depth of 7000 feet, or a North Star which has followed its veins for 8600 feet in depth and still going strong?

Mr. George W. Starr will tell you that for 9 years after he returned from South Africa a regular program of development was prosecuted in order to bring the Empire into steady production. The company now does annually about 15000 feet of drifting and cross cutting.

Vein conditionc are never the same in any two districts. They are not the same in Nevada City as they are in Grass Valley.

We find the most productive veins in Grass Valley in the diabase and granodiorite with the slates very disappointing. Crossings having no more thickness than a knife blade and hardly noticeable to a big lode operator, often enrich the Grass Valley ore to a sudden and surprising extent. Their effect is not so nearly so marked in the Nevada City District.

Speaking of the Slates, the Wyoming vein of the Champion group at Nevada City entirely in the slate, was very heavily mineralized and a good producer.

The amphibolite and the granite rocks seem to be the most favorable for values in the veins they enclose.

Edw. C. Uren.

To be continued next week

George Keller has returned from a two years stay in Arizona.

Court Reporter Miles D. Coughlin was a business visitor in Auburn late Wednesday afternoon.

at the movies

MONDAY—Richard Dix in Moran of the Marines. A picture you will find a real laugh producer. MGM News showing General Foch funeralceremonies in Paris. Parlors Pests is the comedy.

TUESDAY— Murphy Comedians in a classy road show with plenty of snappy comedy. A fine picture alos, Tom Mix in Hello Cheyenne. 25c and 50c admission.

FRIDAY—"Beauty and Bullets." Serial "Tarzan the Mighty.". Comedy.

SATURDAY—Red Riders of Canada. Fighting Finish is the Collegian

SUNDAY and MONDAY—"Case of Lena Smith." Ginger Snaps is the comedy. MGM News.

AN APPRECIATION

We wish to express the sincere thanks of the Dance Committee of the Nevada City Chamber of Commerce for the generous donations of the business men about town, the Grass Valley people for their attendance, particularly Mrs. Robert Sproul of Grass Valley, and Tom Coan; especially Mrs. Lydia Talbot and her assistance for taking over the management and bringing the occasion to a successful termination. We are very grateful to all the committees who aided so well.

R. R. Goyne, Chairman.

Ada Chapter, Order of Sastern Star, of Sacramento, has designated its meeting Thursday of this week as "Out of Town Night" and members of other Chapters are extended a cordial welcome to be present on that occasion.

The net receipts from the recent dance given under the auspices of the chamber of commerce netted the neat sum of $439.55. The gross receipts were $570.05.
